

Characters names are color coded to their domicile region.

Characters whose names are in a	light grey box	live outside of Sotoba
Characters whose names are in an	uncolored box	's domicile region are unknown.
Characters whose names are in a	dark grey box	are deceased before the start of the novel

Colors are based off of their place of residence/status at the beginning of the story, or their first home in Sotoba if they were outside of Sotoba at the start; if anyone moves within or out of Sotoba, this is not noted in the chart. If someone's residency or status is a potential spoiler, it will be left blank. However, characters whose existences may be spoilers will still be included.

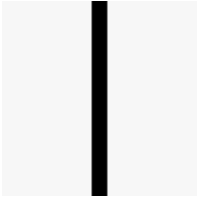

Characters whose family structures are completely unknown will be put alone. Families in which no pictures are available for anybody will not include dummy space holders. If somebody's family tree cannot be made, but they work at one of the locations specified in family business trees (Temple, Hospital, Contractor's firm, etc.), they will be put there and only there.
